

## Scholarship Application

Students use an online application system to apply for scholarships. Through this system, students can log in using their Angel username and password to submit a “common app” for the majority of scholarships. The common app requires a 300-500 word essay response, as well as other biographical information that can give the student a better chance at being selected.

Some scholarships require additional materials, such as a second essay or a letter of recommendation. Students who wish to be considered for these are asked to upload these materials to the website to complete their application. Upon uploading all required materials, students are automatically considered for the scholarships and are notified 1-2 months after the deadline.
