Total Credits	16		

Minimum Credit Hours for degree: 32

NOTES:

- a) According to NYS OASAS, students who have a criminal history are not automatically prevented from receiving their CASAC, but will be required to provide information relative to their conviction to be considered as part of the review for the CASAC Trainee Application. Chemical Dependency Counseling Certificate students may be subject to a fingerprinting check, or be asked about criminal convictions before working in the field. Those who have a criminal history may have difficulty obtaining a field placement and/or employment in the field of chemical dependency counseling and may want to consult an advisor or college counselor before pursuing the program.
- b) SUNY Schenectady does not issue a CASAC Trainee Certification. Students completing the program will have fulfilled all of the academic requirements for the application, but will need to apply through the New York State Office of Alcohol and Substance Abuse Services. (OASAS)
