

## College Transition Course

College Transition is a comprehensive college support program for those who wish to attend college for the first time, retrain in a new field or return to college after a long absence. We provide review and skill building in college level reading, writing and math skills required for college placement and successful completion.

This course assists with navigating the college application, admissions and financial aid processes. Students will be supported in managing educational barriers including, but not limited to: funding, childcare and transportation. College Transition assists students with access to SCCC campus resources as well as utilization of local, state and federal funding beyond standard financial aid in order to defray tuition, childcare and living expenses.
